PLEASE NOTE- "This property is in part designated for a future road by Auckland Transport. A plan showing the extent of the designation is attached. This property has been placed on the market to support an application for a whole property purchase order to be made to the Environment Court under s185 Resource Management Act 1991 (RMA). The designation has blighted the value of the property, but no allowance can be made for this as s185(3) RMA requires the property to be marketed at its full current market value ignoring the depressant effect of the designation on value. Should you require any advice on the effect of the designation please note: A - As Real Estate Agents, we are neither qualified to give any such advice nor are we authorised by the vendors to make any warranties or representations on their behalf as to the designation. B - You should consult your solicitor should you require any advice on the effect of the designation."
